PROFILE

A data-driven professional skilled in Excel, Python, Word, and PowerPoint. Specializes in using analytics to support decision-making, improve efficiency, and identify growth opportunities. Committed to delivering actionable insights that align with business goals.

PROJECTS

Excel Dashboard Project – Hotel Booking Cancellations

- Designed an interactive Excel dashboard analyzing 119,000+ hotel bookings.
- Created KPIs, slicers, pie/bar charts to visualize cancellations, guest types, room assignment issues, and seasonal trends.
- Applied pivot tables and Excel formulas to derive business insights such as peak cancellation periods and room mismatch rates.

Retail Sales Analytics Project

- Cleaned and analyzed 1,000+ sales transactions from an Excel dataset.
- Used Pandas to group data by month and category, calculate total revenue.
- Created visual dashboards using Matplotlib and Seaborn to show trends and KPIs.
- Identified seasonal sales patterns and top-performing product categories.

INTERNSHIP

Junior Bench sales Recruiter, Hidani Tech   OCT 2024 - JAN 2025

- Conducted profile marketing for candidates seeking job opportunities based on specific job
- roles and client requirements.
- Utilized platforms like Dice, Monster, Linked In, and job portals to promote candidate profiles
- effectively.
- Coordinated with hiring managers and third-party vendors to generate interviews and job
- opportunities.
- Gained hands-on experience with US staffing, bench sales process, and profile branding.
